Mandarin

Recent Projects

PetVet

JS, jQuery, HTML 5, CSS3,
Bootstrap, Axios, PHP,
MySQL, React, Redux,
Sketch, Agile

- Mobile and desktop responsive app allowing pet owners and vets to manage the pet's medical records.
- Build low-fidelity prototype using **Sketch** to make sure all pages are user friendly.
- Using **PHP**, **MySQL**, **React**, **Redux** and **Axios** calls to build back/front endpoints, database and communicate with front end.

Environmindful

JS, jQuery, HTML 5, CSS3,
Bootstrap, AJAX, Agile

- An envirmetal dashboard which shows real-time info about weather, current location related pollution news, air quality and energy usage.
- Gethered all dashboard info, using several different **API**'s **AJAX** calls.
- Built structure and functionality, using **JavaScript**, **jQuery**, **HTML5** and **CSS3**.

Calculator

JS, jQuery, HTML 5, CSS3,
Bootstrap

- Designed calculator which is fully mobile and desktop responsive using **Bootstrap** and **Media Queries**.
- Created base structure and styles, using **HTML5** and **CSS3**.
- Built deep logic functions, using **JavaScript** and **jQuery**.

BloodSugar Diary

Sketch, Basamiq, XMind

- An iOS app for diabete patients and high BG value patients to track their BG value, meal, body weight.
- Contact and send reports to doctor through email and phone.
- Created user friendly sitemap and both low-fidelity and high-fidelity prototype, using **Sketch** and **Basamiq**.
- Led both onsite/remote user testing.

Professional Experience

UX Designer
Raise-soft Inc.

2016 - 2017

- Did user research by interviewing potential user and stokeholders.
- Utilized Sketch and Balsamiq to design both low-fidelity and high-fidelity prototype.
- Led both onsite / remote user testing.
